#### **Independent Auditors' Report**

Honorable Mayor and Members of the Town Board Town of Mead Mead, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the Town of Mead as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Town of Mead, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

5950 S. Willow Dr., Ste. 302 Greenwood Village, Colorado 80111

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of the Town of Mead as of December 31, 2018, and the respective changes in financial position and the cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Mead's basic financial statements. The supplementary information and the local highway finance report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Greenwood Village, Colorado June 18, 2019

#### **Management's Discussion and Analysis**

The Management's Discussion and Analysis (MD&A) is designed to provide an easy-to-read discussion of the Town's financial condition and operating results, and to disclose to the reader important financial activities and issues related to the Town's basic operations and mission. The MD&A should be read in conjunction with a review of the Town's basic financial statements.

The Town has two separate financial categories or activities - governmental activities, and those activities referred to as business-type activities. Within the governmental activities, the Town has a General Fund and several Special Revenue Funds. The governmental activities are funded primarily through the Town's ad-valorem property tax, sales taxes, and charges for services. The business-type activities consist of the sanitation fund. This business-type activity is funded primarily through charges for services.

#### **DESCRIPTION OF FINANCIAL STATEMENTS**

This annual report consists of four parts – *Management's Discussion and Analysis* (this section), the *Basic Financial Statements*, *Required Supplementary Information, and Other Supplemental Schedules*. The basic financial statements include two kinds of statements that present different views of the Town:

- The first two statements are government-wide financial statements that provide both longterm and short-term information about the Town's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Town government, reporting on the Town's operations in more detail than the governmentwide statements.

The basic financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data.

The basic financial statements are followed by a section of *required supplementary information* (required under generally accepted accounting principles) that further explains and supports the information in the financial statements.

Following the required supplementary information is *other supplemental schedules*. These schedules are not required by generally accepted accounting principles but present information that is required by the state of Colorado.

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information about the Town as a whole and include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's *Net Position* and changes in them. The Town's Net Position – the difference between assets and liabilities – is one way to measure the Town's financial health, or *financial position*. Over time, increases or decreases in the Town's Net Position

are one indicator of whether its financial health, including liquidity and financial flexibility, is improving or deteriorating. Other non-financial factors, however, such as changes in the Town's property tax base, growth prospects, citizen involvement, revisions to laws, and similar indicators need to be reviewed in order to assess the overall health of the Town.

The Statement of Net Position reports information by fund type. The Statement of Activities reports information by function, program, or service.

In the Statement of Net Position and the Statement of Activities, the Town is divided into two kinds of activities:

- Governmental Activities The activities of the Town for its General Fund and Special Revenue Funds are reported here. Property taxes, sales taxes, and charges for services finance most of these activities.
- Business-Type Activities The activities of the Town's Sanitation Fund are reported here.
   This fund is financed primarily by charges for services.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the Town's funds, focusing on its most significant funds – not on the Town as a whole. The Town's two kinds of funds – governmental and proprietary – use different accounting approaches.

Governmental funds – The Town's activities in its General Fund and Special Revenue Funds are reported as governmental funds, which focus on how money flows into and out of these funds. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statement provides a detailed short-term view of the Town's general governmental operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs and services.

*Proprietary (Enterprise) funds* – The activity of the Town's enterprise fund, its Sanitation Fund, is reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

#### **HIGHLIGHTS**

#### **GOVERNMENTAL ACTIVITIES**

- Sales tax collections were 6.7% above 2017 actual and 19.4% above 2018 budget;
- Use tax collections were flat vs. 2017 actual and 73.5% below 2018 budget;
- Building permit fees were 34.5% below 2017 actual and 74.9% below 2018 budget;
- Severance Tax and Federal Mineral Lease Direct Distributions increased (39.3% above 2017 actual) due to an increase in oil & gas development;
- Royalty payments increased significantly (\$516,369 vs. \$23,050) due to wells drilled which the Town owns the mineral rights;
- Development slowed with 4 single family dwelling permits issued vs. 35 issued in 2017 and 2 commercial permits vs. 4 in 2017;

#### **BUSINESS-TYPE ACTIVITIES**

User fee revenues were \$656,918 in 2018 - an increase of 9.7% vs. 2017. 2018 Plant investment fees (PIFs) totaled \$56,500 compared to \$174,600 in 2017. The largest factor driving the decrease in PIF's was the number of residential units sold - 34 vs. 4 in 2017 and 2018, respectively. The Town was awarded a \$101,000 grant in 2018 from the Colorado Department of Local Affairs for improvements to the Lake Thomas lagoon. Operating and Administrative expenses decreased slightly, \$388,002 in 2018 vs. \$413,765 in 2017. In October 2018, the Town was awarded a second grant from the Colorado Department of Local Affairs for \$284,077 to decommission the North Creek Lift Station and construct a gravity sewer line. The project will begin in 2019.

#### STATEMENT OF NET POSITION

The perspective of the Statement of Net Position is of the Town as a whole. The following is a summary of the Town's Net Position for 2018 compared to 2017:

#### **THE TOWN'S FUNDS**

The Town has several funds that are used to provide financial accountability. The most significant is the general fund which accounts for all activity that is not accounted for in another fund. This includes general government activities (legislative, administrative, etc.) as well as public safety, parks, and capital expenditures that benefit the Town as whole. The other significant funds include the sanitation fund.

In addition, the Town has several funds that account for the revenues and expenses related to various impact fees.

As the Town completed the year, its governmental funds reported a combined fund balance of \$10,033,251, which is an increase from the previous year.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

- General Fund actual total revenues, excluding transfers, lease proceeds, and developer bill backs, were \$39,901 (\$5,218,354 budget vs. \$5,258,255 actual) more than budget. While total revenues were basically flat vs. budget, fluctuations did occur in several accounts. Sales and Use Taxes ended the year \$130,000 less than budget. Better than expected sales tax collections (\$291,000 over budget) helped to offset a short fall in use tax revenues (\$573,000 budget vs. \$152,000 actual) due to the Town not realizing anticipated development (150 single family permits were budgeted vs. 4 actual). Revenues associated with oil and gas (royalty, Federal Mineral Lease, and State severance tax payments) exceeded budget by \$501,650. The excess revenue realized in oil and gas offset the shortfall of \$503,564 in building permit fees (\$672,000 budget vs. \$168,436 actual).
- General Fund actual total expenses, excluding transfers and developer bill backs, were \$1,085,763 less than 2018 budget. Staff vacancies resulted in approximately \$308,400 of unexpended wage and benefits. Reduced expenditures associated with development plan review accounted for expending \$269,094 less than budget. Road department repair and maintenance expenditures were over \$112,000 less due to bridge and concrete repairs not completed. Expenditures were also approximately \$187,000 less than budget for snow removal and street repairs and maintenance. Repair and maintenance costs were less than budget in the Park department due to park reseeding (\$30,000 budgeted) not completed. Landscaping (\$25,000) was also not completed in 2018. Several Park department capital equipment purchases were postponed resulting in expending \$26,000 less than budget and recreation events / programs not held or scaled back yielded \$34,000 in savings.

## **CAPITAL ASSETS**

Capital asset governmental activity for the year ended December 31, 2018, is summarized below.

| Governmental Activities                      | Balance<br>12/31/17 |             |    | Additions   |    | Deletions  |     | Balance<br>12/31/18 |

#### **ECONOMIC AND OTHER FACTORS AND NEXT YEAR'S BUDGET**

Town residents deserve and insist on quality municipal services provided in a productive, friendly, and efficient manner at the lowest possible costs. Our citizens also need to feel confident that the Town is effectively planning for the future to ensure the highest quality of life possible for the community. To meet this challenge, Town Staff and Department Directors approach the budget process with thoughtfulness, professionalism, and a sincere desire to meet the current and future needs of the Town. Mead, like many other municipalities in Colorado, is committed to providing excellent service, maintaining the integrity of our infrastructure and property values, and responsively attending to road repairs, public safety needs and expectations for the provision of quality community amenities. We are also committed to maintaining a healthy financial position so that we can be prepared for unexpected contingencies and maintain superior credit ratings. We continue to emphasize cost control, cost avoidance, protection of infrastructure investments, growing our tax base through development, and diversifying our revenues to protect our financial condition. At the same time, we are paying attention to our human capital, our staff, and investing in them because the quality and stability of staff dictates the quality and effectiveness of the service we provide.

The Board of Trustees for the Town of Mead will continue to use a balanced budget approach to develop the annual budget. Expenses will be based on the available resources and the highest priority needs. The Town began allocating funds to the Capital Improvement Fund which will supplement the anticipated revenue from Development Impact Fees for infrastructure improvements needed to address future growth. As the Town continues to grow, its capital projects will also increase, and therefore, this fund will identify the funding sources and prioritization of expenditures for capital items. Building the Mead Police Department will require increased spending in the Public Safety budget in 2019 and beyond. Transportation expenses continue to increase due to repairs and maintenance required on aging roads and bridges. The 2019 Budget includes completing several studies to better prepare the Town for future growth including a Park Master Plan for Ames Park and Highland Lake, a Road Inventory and Assessment study, and a Wastewater Rate Study.

Several major annexations are nearing completion, the local economy continues to improve, and the Town continues to work with local developers while also trying to attract more businesses. These factors bode well for future residential / commercial growth.

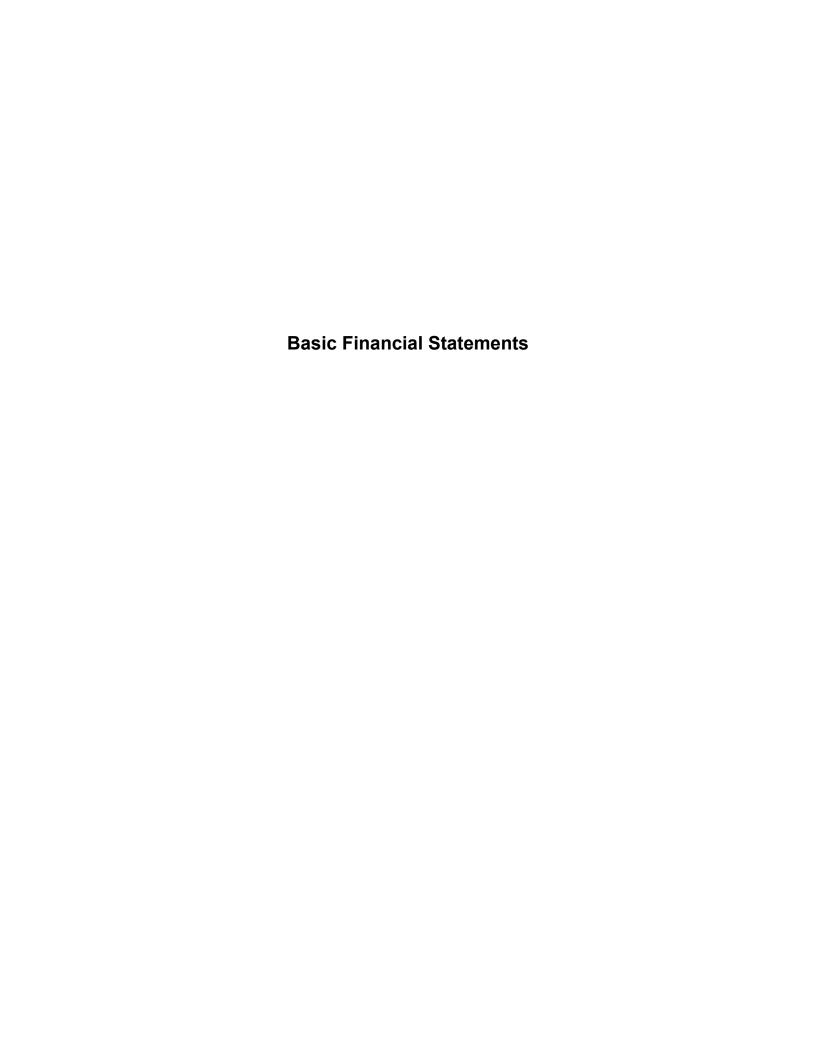

2018 sales tax collections (\$1,791,071) exceeded budget (\$1,500,000), and collections are expected to remain steady through 2019. The Town's main revenue sources, especially sales / use and property tax, continue to be unpredictable and will continue to be monitored closely. The addition of several new businesses will help to even out sales tax revenue and reduce our concentration in one vendor. During 2018, the Mead Urban Renewal Authority (MURA) began to work with a local business to improve blighted conditions in the downtown area. Based upon 2018 revenues (MURA 2018 ending fund balance \$945,453), the Town anticipates more public/private partnership projects in 2019. Property tax collections will remain volatile due to the Town's exposure to oil and gas activity in Weld County. Both the State and the County Assessor have warned of volatile property tax and severance and federal mineral lease distribution revenues due to the oil and gas industry. The Town is treating revenues associated with oil & gas royalties as one-time sources of income and transferring excess revenues to the Capital Improvement Fund. As in the past, if revenues fail to meet projections, the Town will reduce expenditures accordingly.

Staff will continue to address, as best as possible, the majority of needs and desires of the community as identified each year. While enhanced public services are always in demand, Town budgets attempt to reconcile needs and desires with affordability.

#### **CONTACTING THE TOWN'S FINANCIAL MANAGEMENT**

This financial report is designed to provide the general public with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have any questions regarding this report or need additional financial information, please contact either the Town Manager or the Town Treasurer at:

Notes to Financial Statements
December 31, 2018

#### Note 1: Summary of Significant Accounting Policies

The accounting policies of the Town of Mead (the Town) conform to generally accepted accounting principles as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

#### Reporting Entity

The financial reporting entity consists of the Town, organizations for which the Town is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the Town. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the Town. Legally separate organizations for which the Town is financially accountable are considered part of the reporting entity. Financial accountability exists if the Town appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if there is a potential for the organization to provide benefits to, or impose financial burdens on, the Town.

Based on the application of these criteria, there is one component unit over which the Town exercises significant influence which is the Town of Mead Urban Renewal Authority. Significant influence or accountability is based primarily on operational or financial relationships with the Town (as distinct from legal relationships). The component unit is reported as a fund of the Town.

#### **Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the Town and its component units. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The *primary government* is reported separately from the legally separate *component unit* for which the Town is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Internally dedicated resources are reported as general revenues rather than program revenues.

Separate financial statements are provided for governmental funds and the proprietary fund. Major individual funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements
December 31, 2018

#### Note 1: Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current year. Taxes, intergovernmental revenues, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for a specific use, it is the Town's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those accounted for in another fund.

The *Mead Urban Renewal Authority Fund* accounts for operations of the Mead Urban Renewal Authority (MURA) component unit. The revenues are derived from specific taxes or other designated revenues that are legally restricted to expenditures for specific purposes.

The *Municipal Fund* accounts for impact fees that were previously dedicated for municipal, capital equipment and recreation capital expenditures.

Notes to Financial Statements
December 31, 2018

#### Note 1: Summary of Significant Accounting Policies (Continued)

# <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

The *Transportation Fund* accounts for impact fees that are dedicated to the Town's curb, gutter, sidewalk and street improvements.

The *Capital Improvement Fund* accounts for all other major capital improvements not accounted for in one of the impact fee funds and is primarily funded through General Fund transfer.

Additionally, the Town reports the following major proprietary fund:

The Sewer Fund was established to account for the acquisition, operation and maintenance of the Town's sewer facility and infrastructure.

#### Assets, Liabilities and Net Position/Fund Balance

Cash Equivalents – For purposes of the statement of cash flows, cash equivalents are defined as investments with original maturities of three months or less.

Receivables – All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets – Capital assets, which include land, buildings, plant, infrastructure, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund in the fund financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of \$2,500 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives.

| Buildings                         | 30 – 40 years |
|-----------------------------------|---------------|
| Plant                             | 40 years      |
| Sewer Main                        | 20 – 25 years |
| Machinery, Equipment and Vehicles | 3 – 20 years  |
| Infrastructure                    | 25 years      |
| Improvements                      | 20 – 25 years |

Notes to Financial Statements
December 31, 2018

#### Note 1: Summary of Significant Accounting Policies (Continued)

#### Assets, Liabilities and Net Position/Fund Balance (Continued)

*Deferred Inflows of Resources* – Deferred inflows of resources include property taxes earned but levied for a subsequent year.

Compensated Absences – Employees of the Town are allowed to accumulate unused paid time off (PTO) for up to 1.5 times their annual rate of accrual. Upon termination or resignation of employment from the Town, an employee will be compensated for all accrued PTO. Accumulated, unpaid PTO is accrued when earned in the government-wide and proprietary fund financial statements. A liability is reported in the governmental fund financial statements only when payment is due.

Long-Term Obligations – In the government-wide financial statements and the proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt premiums, discounts and refunding losses are deferred and amortized over the life of the debt using the straight-line method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financial sources while discounts are reported as other financial uses.

Issuance costs, whether or not withheld from the debt proceeds, are reported as current expenses or expenditures.

Net Position/Fund Balance – In the government-wide and fund financial statements, net position and fund balance are restricted when constraints placed on the use of resources are externally imposed.

In the fund financial statements, governmental funds report committed fund balances when the Town Board formally commits resources for a specific purpose through passage of a resolution or approval of contractual agreements with third parties.

The Town Board is authorized to informally assign amounts to a specific purpose and has assigned this authority to the Town Manager or other designee. Such fund balance assignments are reported in the governmental fund financial statements.

The Town has not established a formal policy for its use of restricted and unrestricted fund balances. However, if both restricted and unrestricted fund balances are available for a specific purpose, the Town uses restricted fund balance first, followed by committed, assigned and unassigned balances.

#### **Property Taxes**

Property taxes attach as an enforceable lien on property on January 1, are levied the following December, and collected in the subsequent calendar year. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. The County Treasurer's Office collects property taxes and remits to the Town on a monthly basis.

Notes to Financial Statements
December 31, 2018

#### Note 2: Cash and Investments

At December 31, 2018, cash and investments consisted of the following:

 Petty Cash
 \$ 275

 Cash Deposits
 2,874,595

 Investments
 8,061,678

 Total
 \$ 10,936,548

#### **Deposits**

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

#### Investments

The Town is required to comply with State statutes which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities.
- Certain international agency securities.
- General obligation and revenue bonds of U.S. local government entities.
- Bankers' acceptances of certain banks.
- Commercial paper.
- Local government investment pools.
- Written repurchase agreements collateralized by certain authorized securities.
- Certain money market funds.
- Guaranteed investment contracts.
- Certificates of deposits.

Notes to Financial Statements

Fair Value Measurements – The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

- U.S. Treasuries and Agencies Valued at quoted market prices of the assets.
- Mutual Fund Investments Valued at the proportionate share of ownership of the quoted market prices of the underlying assets.
- Commercial Paper Valued at quoted market prices of the assets.

The Town recognizes transfers between levels in the fair value hierarchy at the end of the reporting period. During 2018, there were no changes in the methods or assumptions utilized to derive the fair value of the Town's assets and liabilities.

Interest Rate Risk – State statutes generally limit the maturity of investment securities to five years from the date of purchase, unless the governing board authorizes the investment for a period in excess of five years.

Credit Risk – State statutes limit investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with the Securities and Exchange Commission's Rule 2a-7, and either have assets of one billion dollars or the highest rating issued by one or more nationally recognized statistical rating organizations. At December 31, 2018, the Town's investment of \$6,979,722 in the Colorado Local Government Liquid Asset Trust (Colotrust) was rated AAAm by Standard and Poor's.

Concentration of Credit Risk – State statutes do not limit the amount the Town may invest in a single issuer of investment securities, except for corporate securities.

Notes to Financial Statements December 31, 2018

#### Note 2: Cash and Investments (Continued)

#### **Investments** (Continued)

Local Government Investment Pools – At December 31, 2018, the Town had \$6,979,722 invested in the Colorado Local Government Liquid Asset Trust (Colotrust). The pool is an investment vehicle established for local government entities in Colorado to pool surplus funds. The Colorado Division of Securities administers and enforces the requirements of creating and operating the pools. The pools operate in conformity with the Securities and Exchange Commission's Rule 2a-7, with each share valued at \$1. The pools are rated AAAm by Standard and Poor's. Investments of the pools are limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

#### Note 3: Capital Assets

| Total                          | \$_ | 361,557             | \$  | 2,677     | \$_ | 91,848    | \$_ | 272,386             | \$_ | 57,174                 |

Compensated absences are expected to be liquidated primarily with revenues of the General Fund.

In May 2012, the Town entered into a lease agreement for financing the acquisition of a motor grader valued at \$207,600. The lease has an interest rate of 2.50% and requires quarterly payments of principal and interest through March 2019 of \$7,799. The equipment has an estimated useful life of 7 years. During the year ended December 31, 2018, \$29,657 was included in depreciation expense. The net book value of the asset was \$4,943 as of December 31, 2018. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. It is the policy of the Town to make the lease payment from the General Fund.

In February 2016, the Town entered into a lease agreement for financing the acquisition of radios valued at \$39,004. The lease has an interest rate of 2.10% and requires semi-annual payments of principal and interest through September 2018 of \$6,672. The equipment has an estimated useful life of 5 years. During the year ended December 31, 2018, \$4,800 was included in depreciation expense. The net book value of the asset is \$17,552 as of December 31, 2018. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date. It is the policy of the Town to make the lease payments from the General Fund.

In January 2017, the Town entered into a lease agreement for financing the acquisition of a dump truck valued at \$249,190. The lease has an interest rate of 2.54% and requires quarterly payments of principal and interest through December 2021 of \$13,205. The equipment has an estimated useful life of seven years. During the year ended December 31, 2018, \$35,599 was included in depreciation expense. The net book value of the asset is \$213,592 as of December 31, 2018. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date. It is the policy of the Town to make the lease payments from the General Fund.

In May 2007, the Town entered into a loan agreement with the Colorado Water Resources and Power Development Authority for financing a wastewater treatment system project. This loan was restructured in April 2017 to extend the term an additional ten years. The loan has an interest rate of 3.49% and requires semi-annual payments of principal and interest of \$65,077 through February 2037. The Town has recorded a premium associated with this loan that is being amortized over the loan period. This loan is repaid through the Sewer Fund. The loan requires an operations and maintenance reserve equal to three months of budgeted operations and maintenance expenses excluding depreciation not to exceed \$1,250,000. At December 31, 2018, this amount has been recorded as restricted net position in the Sewer Fund. In addition, the Town has entered into a rate maintenance covenant requiring coverage equal to 110% of the maximum annual debt service of the loan. The coverage calculation for 2018 in included in Note 9. The Town has pledged all sewer revenues to the repayment of this debt.

Notes to Financial Statements December 31, 2018

Note 4: Long-Term Debt (Continued)

#### **Business-Type Activities** (Continued)

Future debt service requirements are as follows:

| Year Ended December 31, |            | Principal |     | Interest | <br>Total       |
|-------------------------|------------|-----------|-----|----------|-----------------|
| 2019                    | \$         | 69,223    | \$  | 60,932   | \$<br>130,155   |

Notes to Financial Statements December 31, 2018

#### Note 5: Interfund Transactions

Interfund transfers during the year ended December 31, 2018, consisted of the following:

| Transfers In  | Transfers Out   | Amount |                            |  |  |
|---|---|--------|----------------------------|--|--|
| General Fund<br>Capital Improvement Fund<br>Art in Public Places Fund | Conservation Trust Fund<br>General Fund<br>General Fund | \$     | 45,000<br>600,000<br>5,500 |  |  |
| Total   |   | \$     | 650,500                    |  |  |

#### Note 6: Deferred Compensation Plan

Under Resolution No. 30-R-2015, the Town established a deferred compensation plan. Participation in the plan is at the employee's option and contributions are limited to the IRS maximum. Under the plan, the Town matches on a one-to-one percentage basis up to 5% of an employee's salary. During the year, employees deferred \$82,782 including \$29,630 of Roth contributions and the Town's match was \$50,137.

#### Note 7: Defined Benefit Pension Plan

#### **General Information**

Plan Description – The Town contributes to the Statewide Defined Benefit Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the Fire & Police Pension Association of Colorado (FPPA). The plan covers all full-time police officers. Title 31, Article 31 of the Colorado Revised Statutes (CRS) grants the authority to establish and amend benefit terms to the FPPA Board of Directors. FPPA issues a publicly available financial report that includes information on the plan. That report may be obtained at <a href="https://www.fppaco.org">www.fppaco.org</a>.

Benefits Provided – A plan member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. The annual normal retirement benefit is 2% of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter. Benefits paid to retirees are evaluated and may be re-determined every October 1. The amount of any increase is based on the FPPA Board of Director's discretion and can range from zero to the higher of 3% or the Consumer Price Index.

## Town of Mead, Colorado

Notes to Financial Statements
December 31, 2018

## Note 7: Defined Benefit Pension Plan (Continued)

#### **General Information** (Continued)

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5% interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the plan and remain eligible for a retirement pension at age 55 equal to 2% of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter.

Plan members may elect to participate in the deferred retirement option plan (DROP) after reaching eligibility for normal retirement, early retirement, or vested retirement, and age 55. A member can continue to work while participating in the DROP, but must terminate employment within five years of entry into the DROP. The member's percentage of retirement benefits is determined at the time of entry into the DROP. The monthly payments that begin at entry into the DROP are accumulated in a DROP account until the member terminates service, at which time the DROP accumulated benefits can be paid as periodic installments, a lump sum, or if desired, a member may elect to convert the DROP to a lifetime monthly benefit with survivor benefits. While participating in the DROP, the member continues to make pension contributions that are credited to the DROP. Each member shall self-direct the investments in their DROP account, which are held by a custodian and not included in the plan's net position.

Contributions – The Town and eligible employees are required to contribute to the plan at rates established by State statutes. Employer contribution rates can only be amended by the State Legislature. Employee contribution rates can be amended by the State Legislature or by election of the membership. The Town and eligible employees contributed 8% and 10% of base salary, respectively, for the year ended December 31, 2018. Plan members elected to increase the employee contribution rate 0.5% annually from 2015 through 2022, to a total of 12% of base salary. Employer contributions will remain at 8% of base salary. The Town's contributions to the plan for the year ended December 31, 2018, were \$19,436, equal to the required contributions.

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At December 31, 2018, the Town reported a net pension asset of \$89,752, representing its proportionate share of the net pension asset of the plan. The net pension asset was measured at December 31, 2017, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2018. The Town's proportion of the net pension asset was based on the Town's contributions to the plan for the calendar year ended December 31, 2017, relative to the projected contributions of all participating employers. At December 31, 2017, the Town's proportion was 0.0003490164%.

For the year ended December 31, 2018, the Town recognized pension income of \$86,665. At December 31, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Contributions subsequent to the measurement date   |    | 19,436                          |                                       |                                |
|  |    |                                 | · · · · · · · · · · · · · · · · · · · |                                |
| Total  | \$ | 67,778                          | \$                                    | 18,135                         |

Town contributions subsequent to the measurement date of \$19,436 will be recognized as an increase to the net pension asset in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

#### Year Ended December 31,

| 2019       | \$ | 6,485   |
|------------|----|---------|
| 2020       | Ψ  | (761)   |
| 2021       |    | (3,448) |
| 2022       |    | 6,647   |
| 2023       |    | 6,647   |
| Thereafter |    | 14,636  |
|            |    | _       |
| Total      | \$ | 30,207  |

Actuarial Assumptions – The actuarial valuations as of January 1, 2018, determined the total pension liability using the following actuarial assumptions and other inputs:

| Investment rate of return, compounded annually, net of plan |              |
|---|--------------|
| Investment expenses, including inflation                    | 7.5%         |
| Inflation   | 2.5%         |
| Projected salary increases                                  | 4.0% - 14.0% |
| Cost of living adjustment (COLA)                            | 0.0%         |

### Town of Mead. Colorado

Notes to Financial Statements
December 31, 2018

## Note 7: Defined Benefit Pension Plan (Continued)

## <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> (Continued)

Mortality rates for active members were based on the RP-2014 Mortality Tables for Blue Collar Employees projected with Scale BB, using a 55% multiplier for off-duty mortality. The RP-2014 Mortality Tables for Blue Collar Employees were used in the projection of post-retirement benefits for members under age 55. For post-retirement members ages 65 and older, the RP-2014 Mortality Tables for Blue Collar Healthy Annuitants were used, and for post-retirement members ages 55 through 64, a blend of the tables was used. All tables were projected with Scale BB.

The current actuarial methods and assumptions were adopted by the FPPA Board of Directors for first use in the actuarial valuation as of January 1, 2016, based upon the actuary's analysis and recommendations from the 2015 Experience Study.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of December 31, 2017, are summarized in the following table:

| Asset Class           | Target<br>Allocation | Long-Term Expected Rate of Return |
|-----------------------|----------------------|-----------------------------------|
| Global Equity         | 37%                  | 8.33%                             |
| Equity Long/Short     | 9%                   | 7.15%                             |
| Illiquid Alternatives | 24%                  | 9.70%                             |
| Fixed Income          | 15%                  | 3.00%                             |
| Absolute Return       | 9%                   | 6.46%                             |
| Managed Futures       | 4%                   | 6.85%                             |
| Cash                  | 2%                   | 2.26%                             |
| Total                 | 100.00%              |                                   |

Discount Rate – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates in the FPPA Board of Director's funding policy, which establishes the contractually required rates under State statutes. Based on this assumption, the plan's fiduciary net position was projected to be available to make all projected future benefit payments to current members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate at the prior measurement date was 7.5%.

## Town of Mead, Colorado

Notes to Financial Statements
December 31, 2018

## Note 7: Defined Benefit Pension Plan (Continued)

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u> (Continued)

Sensitivity of the Net Pension Asset (Liability) to Changes in the Discount Rate – The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as the Town's proportionate share of the net pension asset (liability) if it were calculated using a discount rate that is one percentage point lower (6.5%) or one percentage point higher (8.5%) than the current rate, as follows:

|  |                           | (  | Current |     |                       |  |  |
|--|---------------------------|----|---------|-----|-----------------------|--|--|

| Town's Proportionate share of the<br>Net pension asset (Liability) | \$<br>(57,665)            | \$ | 50,212  | \$_ | 137,298               |  |  |

Pension Plan Fiduciary Net Position - Detailed information about the plan's fiduciary net position is available in FPPA's separately issued financial report, which may be obtained at <a href="https://www.fppaco.org">www.fppaco.org</a>.

## Note 8: Other Postemployment Benefits

Plan Description – The Town contributes to the Statewide Death and Disability Plan, a cost-sharing multiple-employer defined benefit death and disability plan administered by the Fire & Police Pension Association of Colorado (FPPA). All full-time police officers are members of the plan. Contributions to the plan are used solely for the payment of death and disability benefits. Benefits are established by State statute and generally allow for benefits upon the death or disability of a plan member prior to retirement. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by contacting FPPA as described previously.

Funding Policy – The contribution requirements are established by State statute. The Town Board determines the contribution split between members and the Town. For members hired on or after January 1, 1997, the Town contributed 2.8% and 2.7% of base salaries during the years ended December 31, 2018 and 2017, respectively. The Town's contributions to the plan for the years ended December 31, 2018 and 2017 were \$6,560 and \$4,452, respectively, equal to the required contributions.

#### Note 9: Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town purchases commercial insurance for its workers compensation claims.

### Town of Mead. Colorado

Notes to Financial Statements December 31, 2018

## Note 9: Risk Management (Continued)

#### **Public Entity Risk Pool**

For other risks of loss, the Town is involved with the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity formed by intergovernmental agreement by member municipalities pursuant to the provisions of 24-10-115.5, Colorado Revised Statutes (1982 Replacement Volume) and the Colorado Constitution, Article XIV, Section 18(2).

The purposes of CIRSA are to provide members defined liability and property coverages and to assist members in preventing and reducing losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, their employees and officers.

It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the bylaws, any member of CIRSA against stated liability of loss, to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverages at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members. CIRSA is a separate legal entity and the Town does not approve budgets nor does it have the ability to significantly affect the operations of CIRSA.

## Note 10: Commitments and Contingencies

#### Claims and Judgments

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government. Management believes that additional disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the Town.

## **TABOR Amendment**

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. On April 5, 1994, voters within the Town approved the collection, retention and expenditure of the full revenues generated by the Town in 1994 and subsequent years, notwithstanding the provisions of the Amendment.

The Town has established an emergency reserve, representing 3% of qualifying expenditures, as required by the Amendment. At December 31, 2018, the emergency reserve of \$168,295 was reported as restricted fund balance in the General Fund.

## **Town of Mead, Colorado**

Notes to Required Supplementary Information December 31, 2018

## Note 1: Stewardship, Compliance, and Accountability

#### **Budgets**

Budgets are legally adopted for all funds of the Town. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgetary comparisons for the proprietary fund are presented on a non-GAAP budgetary basis, whereby capital outlay and debt principal are budgeted as expenditures.

The Town follows these procedures to establish the budgetary information reflected in the financial statements:

- Management submits to the Town Board a proposed budget for the fiscal year commencing the following January 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 31, the budget is legally enacted through passage of a resolution.
- Management is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Town Board.
- All appropriations lapse at year end.
